

Vice President and Site Director, Pharma Supply Chain Singapore since 2011, Hock Heng is responsible for overseeing GSK's manufacturing sites at Jurong and Quality Road. These two primary manufacturing sites produce key active pharmaceutical ingredients for global supply in various therapy areas such as respiratory, HIV, oncology, and infectious diseases. Jurong is the primary New Product Introduction site in GSK supporting the company's innovation pipeline delivery.

Prior to his career in GSK, Hock Heng worked in the Petrochemical industry. He holds a Master of Science in Industrial & Systems Engineering and a Bachelor of Engineering in Chemical Engineering from National University of Singapore.
