

Rosliza was appointed Head of New Chemical Entity Section in National Pharmaceutical Regulatory Agency (NPRA) Malaysia in March 2020. In drug regulatory affairs, during her first year of tenure, she has been mostly engaged with good reliance initiatives to facilitate earlier access to quality-assured, safe and effective medicines.

A dedicated professional who has served various departments in the Ministry of Health (MoH) for 19 years, Rosliza has presented at International Meetings on Access to Medicine and was actively involved in discussions pertaining to Drug Accessibility, Formulary Management, Pharmacoeconomics and Managed Entry Agreement initiatives from 2011 till 2019.

She received her pharmacy undergraduate training from the Bandung Institute of Technology, Indonesia in 2001 under Public Service Department Scholarship and holds a MSc in International Health Economics and Pharmacoeconomics from Cardiff University, UK.
