

Sannie leads the Pharma Regulatory Policy of Roche in Asia Pacific. As Global Topic Lead for reliance practices, she engages Health Authorities and KOLs to ensure an optimal and robust regulatory environment that facilitates patients' access.

Formerly as Branch Director at Singapore Health Sciences Authority (HSA), Sannie supervised reviewers in chemistry, manufacturing and control in both pre and post-marketing stages. Internationally, she represented HSA as the WHO expert for pre-qualification of Medicines Program, Singapore Lead for ASEAN Pharmaceutical Products Working Group (technical); and work-sharing initiatives of ACSS (Australia-Canada-Singapore Switzerland)

Currently she serves as visiting expert of the Duke-NUS (Singapore). Sannie holds a Ph.D. in Chemistry from the University of Hull (UK) and a postdoctoral research fellowship from the University of North Carolina at Chapel Hill (USA).
