

Yasuhiro is currently an International Liaison Official stationed at EMA, dealing mainly with bilateral communication between MHLW/PMDA and EMA. Since joining PMDA in 2008, he has worked in the Office of Cellular and Tissue-based Products where his responsibilities were the quality review of biotechnological/biological products and biosimilars.

Yasuhiro has been actively engaged in various international activities in these areas such as WHO, APEC, ICH and IPRP. Assigned as ICH Q12 topic leader for the Japanese regulatory authority ICH Technical Coordinator, he has worked in the Office of International Programs. His Ph.D. is from Hokkaido University in Meat Science with emphasis in Molecular Biology.
